<b>Table 20 A</b>	Handlebars (Drum brake)	<b>70</b>
<b>Table 20 B</b>	Handlebars (Disk brake)	<b>72</b>

## Preface

- This document is a list of spare parts for various types of the famous Moto Morini 3 $\frac{1}{2}$ .
- This document is not the official spare-parts list from provided from Moto Morini. However, it is derived from it using the pictures and the data.
- It might be helpful for finding the code numbers the spare parts and give hints how they fit together – but it cannot replace the service manual.
- One may distribute this document, electronically or as a hardcopy, provided that this preface is included. BUT IT MUST NOT BE SOLD!
- This document comes with absolutely no guarantee of being complete or correct. Use it at your own risk.
- However, if you find an error, you may keep it or - which is definitely the better solution – report it to us: [pabooth@bigpond.com](mailto:pabooth@bigpond.com) or [tre.e.mezzo@gmx.net](mailto:tre.e.mezzo@gmx.net)
- We don't deal with Morinis or spare sparts - we just own and enjoy them.
- More Morini related literature can be found on Peter's marvelous webpage: <http://www.users.bigpond.com/pabooth/>
- Happy riding!
